

OHIO GROWS APPLICATION INSTRUCTIONS

Local 212 has been allocated 200 training spots by the Ohio Grows Grant for training in Solar, Wind, and Energy Efficiency. The JATC will be hosting Solar classes and has scheduled three classes in July. Additional classes will be scheduled at a later date. **These classes are free for Ohio residents. In addition, the grant will also pay \$400.00 to each Ohio resident who completes the class** (full attendance required) and provide lunch for participants in daytime classes.

If you are an Ohio resident and are interested in taking a grant sponsored class, **complete and return both sides of this page to the JATC.** The Ohio Grows Application is located on the back side and the JATC Registration form is at the bottom of this page. BOTH sides must be completed. We will use these forms to fill the classes with eligible participants. For the July classes, registration forms must be **completed and returned by August 2, 2010.** These forms require an original signature, so mail or drop them off to the JATC. Do not fax.

Please note that by returning these registration forms, you are not signing up for a specific class but are applying for entry to a class. Therefore, on the JATC Registration form, indicate which classes you are able to attend in order of preference. If you cannot attend a complete class, do not include it.

If you are not an Ohio resident you cannot participate in the grant but if spots are available you may take the classes at a reduced rate of \$75.00. In this case, use the regular JATC registration form included in this packet to register. Do NOT complete this form. Also please note that only Ohio residents can receive the \$400.00 stipend for completing the class.

Classes will be filled with Ohio residents by priority registration. Each registrant will be assigned to a category as defined below. Names of registrants will be added to a master list in the order that registrations are received and by Category:

Priority	Category Description	Spots/Class
1	Currently employed by a NECA contractor	5
2	JW's working outside of the electrical industry/ JW's no longer working in an automotive setting due to lack of work/JW's currently unemployed	4
3	Minorities including females	2
4	3rd, 4th or 5th year apprentices	1

If spots are still available after priority registration, a lottery drawing will be held with remaining grant registrants then with non-Ohio residents who have returned registration forms.

OHIO GROWS REGISTRATION FORM FOR OHIO RESIDENTS (Complete both sides.)

I am an Ohio resident and interested in participating in a Solar Class sponsored by the Ohio Grows Grant. I understand that full attendance is required to receive the \$400.00 stipend.

First Name _____ MI _____ Last Name _____ Local 212 Card # _____

Indicate 1st, 2nd, and/or 3rd class choice using 1, 2, and 3. Do not place a number next to a class you cannot take:
